"While naive Baptists continue to circulate the bogus tale about a microphone that supposedly was lowered down a deep mine shaft, recording the cries of the damned in Hell, the Italians in my old Manhattan neighborhood would have asked, 'How come da heat didn't boin da wires?'"

I agree with Dr. Grady. I'll tell you one thing though—The Word of God proclaims that Hell is real, and you can rest assure that those who die in their sins without Christ as Savior will be tormented in the fires of Hell (Gehenna) forever (Revelation 20:11-15). Will you risk your soul's eternal damnation on the gamble that the Bible is not God's Word? Not me friend! I believe that the Bible is God's Word. My trust is solely in Jesus, the Christ, and the blood that He shed to pay for all my sins (1st Peter 1:18,19). Won't you [believe upon the Lord Jesus Christ](#) too? -by David J. Stewart

**The following article appeared in the well respected
Finland newspaper, *Ammenusastia*:**

“As a communist I don’t believe in Heaven or the Bible; but as a scientist I now believe in Hell,” said Dr. Azzacove. “Needless to say we were shocked to make such a discovery. But we know what we saw and we know what we heard. And we are absolutely convinced that we drilled through the gates of Hell!”

Dr. Azzacove continued, “. . .the drill suddenly began to rotate wildly, indicating that we had reached a large empty pocket or cavern. Temperature sensors showed a dramatic increase in heat to 2,000 degrees Fahrenheit.”

“We lowered a microphone, designed to detect the sounds of plate movements down the shaft. But instead of plate movements we heard a human voice screaming in pain! At first we thought the sound was coming from our own equipment.”

“But when we made adjustments our worst suspicions were confirmed. The screams weren’t those of a single human, they were the screams of millions of humans!”

Researchers record the screams of the damned? Fact or fiction? You decide.
